

KGPCo: Your Strategic Partner in BEAD Program Success

KGPCo is North America’s largest supply chain logistics supplier to communications service providers, state and local enterprises and utilities. We provide solutions for every type of network build, customized to meet your specific needs at scale, including the passive OSP materials and active electronics required to build and maintain your middle mile or last mile network. In partnership with our global suppliers, we offer comprehensive end-to-end core network-to-edge material and electronics solutions, along with value-added services all the way to your customer’s door, ensuring alignment with federal funding requirements through Made in America and BABA compliance. Our 50+ years of industry experience is unrivaled.

KGPCo is your single source to build and maintain your network, connect your customers, help you navigate industry change and technology evolution while finding growth opportunities.

Our cost-effective and innovative solutions combine:

- Product distribution
- Advanced supply chain management
- Inside plant
- Outside plant
- Wireless services

These solutions support various implementations such as broadband deployments, FTTx, fixed wireless applications, and active electronics. They enable broadband providers to develop communication networks that bring high-speed connectivity to unserved and underserved communities.
