# PREMIER RG59/6 BNC CRIMP CONNECTOR KIT

PREMIER's BNC hex crimp connectors for terminating RG59 or RG6 coaxial cable.

- Includes 2 ferrules which allow for easy installation on RG59 or RG6 coaxial cable
- Designed to work with any standard hex crimping tool
- High performance BNC connector
- Bandwidth: 0 MHz to 3 GHz
- Impedance: 75 Ohms

10	Ferrule	Zinc-alloy	Nickel
9	Shell	Zinc-alloy	Nickel
8	Body	Brass	Nickel
7	Insulator	ABS	
6	Pin	Brass	Gold
5	O-Ring	Silicon	
4	Washer 1	Iron	Nickel
3	Washer 2	Brass	Nickel
2	O-Ring	Silicon	
1	Inner Conductor	Phosphor bronze	Nickel
No.	PART	MATERIAL	PLATING

ITEM ID	PART#	DESCRIPTION
0000494875	PT-BNC-RG59/6	BNC hex crimp connectors for terminating RG59 or RG6 coaxial cable

Ask your PREMIER Account Representative for more details and place your order today. Call 800-755-1950.

## Station Wire

Station wire is constructed with a tough PVC jacket for indoor/outdoor applications that provides additional protection when exposed to outside weather conditions. Station wire is made from 22 or 24 gauge solid bare copper conductors that are individually insulated with semi-rigid PVC. Station wire is available in Category 3 or Category 5e.

Item No.	Mfg. Part No.	Description
2010827500	SW-C3X-2P22BG-P1000	2 Pair 22 Gauge CMX Category 3 1000 Foot Pop Box Beige

0000014266	2137146E	4 Pair 24 Gauge CMX Category 5e 1000 Foot Pop Box Gray
0000185515	2137144E	4 Pair 24 Gauge CMX Category 5e 1000 Foot Pop Box Beige
0000282004	2137113E	4 Pair 24 Gauge CMX Category 5e 600 Foot Pop Box Ivory
0000031726	51-240-31	4 Pair 24 Gauge CMX Category 5e 1000 Ft Pop Box Gray-Superior Essex

## CATV Coax Cable

CATV Coaxial Cables are used for Radio Frequency (RF) signal transmission in broadband cable television applications. These coaxial cables are designed for low loss signal transmission and are available with a variety of shielding options in general purpose, riser and plenum constructions.

- 18 Gauge Solid Copper Clad Steel
- 60% Aluminum Braid Shield
- 75-ohm nominal impedance

Item No.	Mfg. Part No.	Description
0000108097	C5775.31.01	RG6 Coax General Purpose CM 60% Braid 1000 Foot Pop Box Black
0000233798	C5775.31.02	RG6 Coax General Purpose CM 60% Braid 1000 Foot Pop Box White
0000196741	C5775.41.01	RG6 Coax General Purpose CM 60% Braid 1000 Foot Reel Black

Ask your PREMIER Account Representative for more details and place your order today. Call 800-755-1950.

# PREMIER® CATV

## Digital Coax Splitter - 5-1000 MHz

PREMIER SCTE compliant CATV digital splitters provide the performance to exceed the high speed networking capacity and reliability required for high definition video streaming, internet services, and gaming in residential and multi-dwelling applications.

### Features and Benefits

- » Excellent return loss and port-to-port isolation in the return band.
- » Built-in 6kv ring wave and combo wave surge protection.
- » Machine threaded flat "F" ports.
- » Gold plated 360° contacts engineered for maximum contact and superior retention. Copper construction helps prevent common path distortion & impedance.
- » Ports are weather-sealed to 15 PSI to prevent moisture ingress.
- » Solid zinc cast housing with bright tin triple plating for durability in all environments.
- » Tin-plated copper back plate provides minimum -130dB shielding effectiveness and superior defense against long-term corrosion factors.
- » Stainless steel universal drive mounting screws and ground port screws included.
- » Low intermodulation distortion and protection against ferrites saturation.
- » Enhanced 15-42MHz return path for superior output return loss and port to port isolation performance.
- » Ultra linear ferrites prevent inter-modulation where high level return carriers can affect forward path performance.
- » 6 kV High grade voltage blocking capacitors on all ports to eliminate core saturation.
- » Superior intermodulation distortion and second harmonic performance.
- » Weather-sealed "F" ports.

### PREMIER® Digital Coax Splitter Specifications

- » 5-1000 MHz Bandwidth.
- » SCTE Compliant.
- » Operation temperature of -40°C to +60°C.
- » Meets or exceeds ANSI/SCTE 153 2008 for outdoor use and environmental and mechanical requirements.
- » Corrosion resistance, 1000 Hours of salt spray per ANSI/ SCTE 143 2007.
- » F connector, SCTE compliant IPS-SP-400.
- » Meets or exceeds SCTE IPS SP 217 R02.

### Ordering Information

ITEM ID	PART#	DESCRIPTION
0000438631	PT-DiGi-2W-1G	2-Way Horizontal Port Coax Splitter, 5-1000MHz bandwidth digital optimized, SCTE compliant.
0000438633	PT-DiGi-3WB-1G	3-Way Horizontal Port Coax Splitter, Balanced, 5-1000MHz bandwidth digital optimized, SCTE compliant.
0000438637	PT-DiGi-4W-1G	4-Way Horizontal Port Coax Splitter, 5-1000MHz bandwidth digital optimized, SCTE compliant.

Ask your PREMIER Account Representative for more details and place your order today. Call 800-755-1950.

# PREMIER® MoCA Broadband Coax Splitters - 5-1675 MHz

PREMIER MoCA 2.0 optimized coax splitters provide the performance to exceed the high speed networking capacity and reliability required for high definition video streaming, internet services, and gaming in residential and multi-dwelling applications.

## Features and Benefits

- » Excellent return loss and port-to-port isolation in the return band.
- » Built-in 6kv ring wave and combo wave surge protection.
- » Machine threaded flat “F” ports.
- » Gold plated 360° contacts engineered for maximum contact and superior retention. Copper construction helps prevent common path distortion & impedance.
- » Ports are weather-sealed to 15 PSI to prevent moisture ingress.
- » Solid zinc cast housing with bright tin triple plating for durability in all environments.
- » Tin-plated copper back plate provides minimum -130dB shielding effectiveness and superior defense against long-term corrosion factors.
- » Stainless steel universal drive mounting screws and ground port screws included.
- » Low intermodulation distortion and protection against ferrites saturation.
- » Enhanced 15-42MHz return path for superior output return loss and port to port isolation performance.
- » Ultra linear ferrites prevent inter-modulation where high level return carriers can affect forward path performance.
- » 6 kV High grade voltage blocking capacitors on all ports to eliminate core saturation.
- » Superior intermodulation distortion and second harmonic performance.
- » Weather-sealed “F” ports.

## PREMIER® MoCA Broadband Coax Splitter Specifications

- » 5-1675 MHz Bandwidth.
- » MoCA 2.0 Compliant
- » 2nd Harmonics/ Typical -55 dBmv, Min -45 dBmv.
- » Operation Temperature of -40°C to +60°C.
- » Meets or exceeds ANSI/SCTE 153 2008 for outdoor use and environmental and mechanical requirements.
- » Corrosion resistance, 1000 Hours of salt spray per ANSI/ SCTE 143 2007.
- » F connector, SCTE compliant IPS-SP-400.
- » Meets or exceeds SCTE IPS SP 217 R02.

## Ordering Information

Item Number	Part Number	Description
0000438656	PT-MoCA-2W-2.0	2-Way Horizontal Port Coax Splitter, 5-1675 MHz bandwidth, MoCA 2.0 optimized.
0000438657	PT-MoCA-2WV-2.0	2-Way Vertical Port Coax Splitter, 5-1675 MHz bandwidth, MoCA 2.0 optimized
0000438658	PT-MoCA-3WB-2.0	3-Way Horizontal Port Coax Splitter, Balanced, 5-1675 MHz bandwidth, MoCA 2.0 optimized
0000438659	PT-MoCA-3W-2.0	3-Way Horizontal Port Coax Splitter, Unbalanced, 5-1675 MHz bandwidth, MoCA 2.0 optimized

# PREMIER® Standard CATV

## Coax Splitter - 5-1000 MHz

PREMIER Standard CATV splitters provide the performance to exceed the high speed networking capacity and reliability required for high definition video streaming, internet services, and gaming in residential and multi-dwelling applications.

### Features and Benefits

- » Excellent return loss and port-to-port isolation in the return band.
- » Machine threaded flat “F” ports are SCTE compliant.
- » Tin plated zinc cast housing.
- » -130dB RFI shielding.
- » Universal drive mounting screws and ground port screws included.
- » Low intermodulation distortion and protection against ferrites saturation.
- » Enhanced 15-42MHz return path for superior output return loss and port to port isolation performance.
- » Smaller housing for tight installation.
- » Glass PCB with micro strip design.
- » Special magnetism resistant ferrite core prevents saturation.

### PREMIER® Standard CATV Coax Splitter Specifications

- » 5-1000 MHz Bandwidth.
- » SCTE Compliant.
- » F connector, SCTE compliant IPS-SP-400.
- » Solder back -130dB RFI.

# PREMIER®

## ADSL POTS Splitter - Outdoor Ancillary Device

The PREMIER ADSL POTS (Plain Old Telephone Service) Splitter Outdoor Ancillary Device is a passive unit which allows both voice and data signals to transmit separately over telephone lines. This device can be mounted externally on a wall or conduit. With wiring terminals for each of three splitter ports in an environmentally hardened casing, the PREMIER ADSL POTS Splitter is extremely versatile and durable.

### Features & Benefits

- » Outdoor housing with environmental protection
- » Wall or conduit mounting options
- » Wiring terminals for each splitter port (Network, Data, Voice)
- » ANSI T1.413 compliant
- » UL-listed to U.S. and Canadian safety standards
- » FCC registered; Part 68 compliant
- » Provides network test signatures
- » Can be mounted in wiring closet
- » Simple screw terminal installation

## PREMIER® ADSL Technical Specifications

### Electrical (Complies with ANSI T1.413 Issue 2 Annex E)

DC Loop Current.....	0 to 100 mA
DC Loop Voltage (tip-to-ring).....	0 to - 60 VDC
Ringing Signals.....	103 Vrms superimposed on the DC Loop Voltage, 20 to 30 Hz
DC Resistance.....	≤ 25 ohms,POTS tip-to-ring with Line port (U-R) shorted
Insertion Loss.....	≤ 1.0 dB; short loop, ZTc=900, ZTr=600, 1004 Hz ≤ 0.75 dB; long loop, ZTc=900, ZTr=600, 1004 Hz
Attenuation Distortion (Voice Band) ..... increase relative to Insertion Loss at 1004 Hz	+1.5 to -1.5; 0.2 -3.4 kHz, short loop, ZTc=900, ZTr=600 +2.0 to -2.0; 3.4 - 4.0 kHz, short loop, ZTc=900, ZTr=600 -0.5 to -1.5; 0.2 - 4.0 kHz, long loop, ZTc=900, ZTr=600
Delay Distortion (Voice Band) increase.....	≤ 200μs; 0.6 - 3.2 kHz, short loop, ZTc=900, ZTr=600 ≤ 250μs; 0.2 - 4.0 kHz, short loop, ZTc=900, ZTr=600 ≤ 200μs; 0. - 3.2 kHz, long loop, ZTc=900, ZTr=600 ≤ 250μs; 0.2 - 4.0 kHz, long loop, ZTc=900, ZTr=600
Return Loss (Voice Band).....	>6 dB ERL, > 5 dB SRL-L, > 3dB SRL-H; short and long loop >2 dB SRL-H; short and long loop, single frequency
Longitudinal Balance, Two Port Technique.....	>58 dB; 0.2-1.0 kHz
POTS to Line Port (U-R) and Line Port (U-R).....	>straight line from 58 dB @ 1 kHz to 53 dB @3.0 kHz, to POTS Bias 25 mA DC
Tip-to-Ring Capacitance, POTS Port.....	20 ≤ C ≤115 nF;20 - 30 Hz (Note:T1.413 Issue 2 requires ≤ 90 nF, plans are to increase this in Issue 3 to ≤ 115 nF)
Capacitance to Ground, POTS Port.....	≤1.0 nF; 20 - 30 Hz
ADSL Band Attenuation.....	>65 dB; 30 - 300 kHz, ZTr=600 >55 dB; 300 -104 kHz, ZTr=600
Input Impedance.....	≤0.25 dB; 30 -1104 kHz, ZTr=600

### Environmental

Lightning Surge.....	GR-1089-CORE Level 1 and Level 2 surge
Power Cross.....	GR-1089-CORE First and Second Level AC Power Fault Immunity
Operating Temperature.....	-40 to +65°C (-40 to 149°F)
Relative Humidity.....	0 to 95%, non-condensing

### Safety

UL-listed to U.S. and Canadian safety standards

FCC Part 68 compliant

Ask your PREMIER Account Representative for more details and place your order today. Call 800-755-1950.

## PREMIER OEM Compatible Optics

- » Coded for Identical Functionality to OEM Products
- » Significant Savings compared to OEM Products
- » 100% Individual OEM Specific Testing for Guaranteed Compatibility
- » Spirent® Test Center for Traffic Simulation Functionality Testing
- » Effortless Integration with OEM and Third-Party Products
- » Increased Scalability and Flexibility
- » Custom Solutions not offered by OEM

## Why PREMIER

### PREMIER products perform identical to the OEM

Supported Display with full System Recognition and Optical Monitoring Diagnostics

### PREMIER products will not void the OEM warranty or service agreement

PREMIER supports over 8000 OEM Compatible Solutions from 1GB to 100GB

## LIFETIME WARRANTY

Ask your PREMIER Account Representative for more details and place your order today. Call 800-755-1950.

## Features and Benefits

- » Peace of Mind - PREMIER products will NOT void the OEM Warranty agreement or SLA
- » Carrier Grade Without Compromise - Reduce acquisition cost and maximize budget
- » Prolong Network Lifestyles - Current and legacy platforms supported
- » Expansive Product Offering - Over 8000 network connectivity products
- » Just In-Time Delivery - Most products are available for immediate shipment
- » Technical Support - Certified Technicians for pre/post-sales support
- » Comprehensive test lab contains the industry's leading network platforms
- » **LIFETIME WARRANTY**

## How to Order PREMIER Products

Order Configuration

PREMIER part number = PT-OEM PN

Example: Cisco GLC-SX-MMD

## Supported manufacturers include:

3Com • Accedian • ADTRAN • Adva • Aerohive • Alcatel-Lucent • Allied Telesis • Arista • Avaya • Blade Network • Brocade/Foundry • BTI • Calix • Ciena • Cisco • Coriant • Cyan • D-Link • Dell • EMC • Enterasys • Extreme Networks • F5 Networks • Force 10 • Fujitsu • Gigamon • H3C • Harmonic • Hatteras • HP • Huawei • IBM • Infinera • Intel • Juniper • Linksys • Marconi • Meraki • Moxa • NetApp • Netgear • Nokia • Nortel • Occam Networks • Palo Alto Networks • Siemens • SMC • Sun • Telco Systems • Tellabs • Zyxel

Ask your PREMIER Account Representative for more details and place your order today. Call 800-755-1950.

# PREMIER

## xDSL over POTS In-Line and Slim In-Line Filters

The PREMIER filters are designed to expedite the service delivery and improve the performance of digital subscriber line (DSL) services. These models filter all telephone sets, facsimile machines, answering machines, etc. individually or in groups. The DSL filters design electronically isolates the high-speed DSL data streams from the voice band POTS (plain old telephone service) equipment. This design effectively blocks the DSL, and other radio frequencies from 25 kilohertz to 30 Megahertz.

### Features

- » **Data Protection** - Isolates telephone impedance changes from DSL equipment
- » Excellent DSL band attenuation that protects voice band equipment and prevents inter-modulation distortion from degrading data rates
- » Compatible with all major DSL standards including ADSL, ADSL2+, VDSL, and VDSL2
- » **Voice Protection** - Isolates DSL band frequencies from voice band equipment
- » Excellent longitudinal balance
- » Compatible with Caller ID, facsimile and metallic loop testing
- » RoHS compliant
- » Compliant and listed with UL 60950, FCC Part 68
- » ETL certified

### Ordering Information

Item Number	Part Number	Description	
0000188943	PT-DSL-ILF-T	xDSL over POTS In-Line Filter	Includes a second convenience jack that is unfiltered for connecting DSL

## PREMIER Filter Specifications

Line side differential input blocking impedance		
At 20kHz		>2k
At 30kHz		>3k
From 5MHz to 10MHz		>2k
1kHz insertion loss between 600Ω resistive		
Single filter		<0.4
With 5 filters		<0.6
1kHz/2.8kHz slope between 600Ω resistive		
Single filter		<0.1
With 5 filters		<1.1
DC resistance in Ohms		
Tip to Tip, and Ring to Ring		<12
Tip to Ring		>10M
Longitudinal Balance per IEEE method		
From 200 - 1kHz		>58dB
From 1kHz - 3kHz		>53dB
Common mode rejection, 40kHz and 30MHz		
>45dB		
Low pass roll off (slope) between 600Ω and ADSL Transmission Unit - Remote		
>26dB		
Inter-Modulation Distortion First and Second order products		
>60dB		
Envelope Delay 300 Hz - 2800 Hz		
<100μs		
600Ω Return Loss into phone side with 600Ω line termination with ATU-R		
Single filter	SRL Low	>30dB
	ERL	>14dB
	SRL High	>17dB
+2 bridged filters	SRL Low	>36dB
	ERL	>23dB
	SRL High	>13dB
+4 bridged filters	SRL Low	>26dB
	ERL	>15dB
	SRL High	>8dB
Complex* Return Loss with ATU-R		
Single filter	SRL Low	>27dB
	ERL	>14dB
	SRL High	>6dB
+ 2 bridged filters	SRL Low	>19dB
	ERL	>14dB
	SRL High	>3dB
+ 4 bridged filters	SRL Low	>15dB
	ERL	>7dB
	SRL High	>2dB
*1330Ω in parallel with (100nfd in series with 348Ω)		
DC Loop Current - Meets specifications between 20 and 100 milliamps DC		
Connectors: RJ-11 Jacks and RJ-11 Plug.		
RJ11 pins have ≥50 micro-inches of gold plating over ≥100 micro-inches of nickel plating		
Compliant and listed with UL / CSA 60950, FCC CFR 47 Part 68

## HY-END Bifen ITP®

## HY-END Bifen S

### Fire Ant Control that is: Effective and Convenient.

**Effective** - HY-END Bifen controls Fire Ants where applied in and around telecommunication, power, utilities, and railroad systems equipment. The active ingredient Bifenthrin is the most effective product in the market today featuring the longest lasting residual control of insects in its class.

**Convenient** - The next generation of Fire Ant control is now available in convenient 4 oz packaging. Individual packages are shipped and stored in user friendly, waterproof buckets with 100 single application packets (4 bags of 25 packets) in each bucket. HY-END Bifen is also available in a 64 oz. shaker can with 8 cans per case.

## Applications

NaturChem's HY-END Bifen is labeled to be used for Fire Ant Control in and around the following locations:

- » Telecommunications equipment
- » Pad mounted transformers
- » Underground power cable splice boxes and vaults
- » Telephone pedestals and cables
- » A/C or air handling systems (around homes and commercial locations)
- » Traffic signal boxes
- » Railroad control/communications boxes
- » Electric and water meter boxes
- » Cable television pedestals
- » Runway lighting boxes, and lighting control buildings and boxes
- » Ground mounted utility cabinets
- » Utility poles
- » Boxes, closures, interfaces, protectors, terminals
- » Fire alarm systems, lights and alarms

## NaturChem HY-END Bifen ITP® & S

Bifen ITP	Features	Benefits
<b>Effective</b>	Active ingredient Bifenthrin is extremely effective on a wide variety of insects including spiders and 72 soil borne insects	Produces dependable results
<b>Specific</b>	Bifenthrin is especially effective on soil active insects	Ideal for fire ant control
<b>Enduring</b>	Very low water solubility giving rise to longevity in the soil (is a standard for treatment of termites)	Longevity and dependability
<b>Odorless active ingredient</b>	Non-corrosive and non-conductive	May be used in a variety of locations (refer to product label)
<b>Convenient</b>	Re-sealable bucket with 100 single application packets in each bucket or a 64oz. shaker can	Compact storage Protection from damage and moisture No measuring

Ask your PREMIER Account Representative for more details and place your order today. Call 800-755-1950.

# PREMIER®

## Bare Fiber Adapter

### Easier, faster, more efficient fiber testing

The PREMIER® Bare Fiber Adapter provides a temporary connection that eliminates the time consuming process of splicing jumpers onto individual fibers for testing. This allows you to easily test and detect fiber damage any where, any time. It will make fiber testing and network maintenance easier, faster and more efficient for technicians and contractors.

Unlike other adapters, the PREMIER® Bare Fiber Adapter is contained in a durable aluminum-alloy housing which is easy to stabilize on any magnetic surface for hands-free use. The fiber is held securely in place until you press the push button release and remove the fiber. If a fiber should break inside the unit, the fiber pieces can be easily removed by using the cleaning wire kit included with each Bare Fiber Adapter. A built-in compartment with a sliding door allows you to see inside the adapter to assist in fiber alignment and cleanout.

The PREMIER® Bare Fiber Adapter kit comes in a belt-hanger zipper case and includes everything needed to test any fiber optic cable. The kit includes:

- » PREMIER® Bare Fiber Adapter
- » Launch reel with 122m (400ft) of singlemode fiber and SC connectors
- » One meter SC singlemode fiber jumper
- » Zipper case with Carabiner clip
- » Cleaning wire kit
- » Operational guide

### Product Features

- » Durable aluminum-alloy housing
- » Simple, accurate, easy to use
- » Hands free with magnetic mount
- » Fiber retaining mechanism holds fiber in place
- » Commonly used SC connector port allows for replaceable jumper
- » Built-in compartment to assist in bare fiber alignment and removal of broken fibers
- » Matching gel not required

Ask your PREMIER Account Representative for more details and place your order today. Call 800-755-1950.

# PREMIER®

## Bare Fiber Adapter

### Benefits

- » Test any size or type of fiber
- » Test multiple strands in minutes
- » Test fiber on the reel before installation
- » Reduce trips to site
- » Reduce labor and contractor costs
- » Reduce wasted restoration time
- » Reduce customer outage duration

# Economy Grade Vinyl Electrical Tape

PREMIER Economy Grade Vinyl Electrical Tape is a general purpose indoor and outdoor insulating tape that is both economical and durable.

## Applications

- Used for joining and splicing wires and cables for electrical insulation
- Indoor and outdoor insulating tape
- Suitable for uses under 600V or 80°C (176°F)
- Ideal for all applications where UL listed insulated materials are required.

## Features & Benefits

- Economical and Durable
- UL Listed
- 3/4" x 60' rolls available in several different colors
- One sided coating of rubber-based, pressure sensitive adhesives eliminates the need of heat, moisture, or other catalysts to affect application
- Soft PVC film coated tape; suitably plasticized and stabilized

## Technical Performance

Description	Units	Value	Test method
Tape thickness	mm/mils	0.18 / 7.0	PSTC-33
Adhesion to steel	kg/cm, oz/in	0.20 / 18	ASTM D-1000
Adhesion to backing	kg/cm, oz/in	0.20 / 18	ASTM D-1000
Elongation at break	%	200	PSTC-31
Tensile Strength	kg/cm, lbs/in	3.2 / 18	PSTC-31
Dielectric at Break	Volts/mil	1,250	ASTM D-1000

## Hand Cleaner Towels

### What are they? How do they work?

PREMIER Hand Cleaner Towels are a unique patented waterless hand-cleaning system. Combining both a high-quality liquid hand cleaner and a heavy-duty, non-scratching, abrasive hand-cleaning towel. This patented towel construction is comprised of a polymeric non-woven soft layer, to which thousands of polymeric deep cleaning scrubbers are permanently bonded to one side of the surface. A special microperforation pattern is added to hold an effective liquid contaminate dissolving agent and soil lifters that dry quickly.

### Who uses PREMIER Hand Cleaner Towels? And where?

Many workers wipe their hands up to 100 times a day without actually cleaning their hands. PREMIER Hand Cleaner Towels can quickly disinfect hands of mechanics, technical service and industrial workers right on location.

### How do PREMIER Hand Cleaner Towels compare to other products?

It is difficult to compare PREMIER Hand Cleaner Towels due to their unique characteristics. PREMIER Hand Cleaner Towels are used for cleaning hands, rather than inadequately wiping them with ordinary shop towels, paper towels, or rags. This is the ideal system for keeping hands professionally clean when soap and water are unavailable.

### Features

- » No rinsing, no drying and no residue
- » Portable
- » Durable Towels
- » Quick Drying Time

Ask your PREMIER Account Representative for more details and place your order today. Call 800-755-1950.

# PREMIER®

## Hand Cleaner Towels

### What types of soil will PREMIER Hand Cleaner Towels actually remove?

Besides normal dirt and soils, PREMIER Hand Cleaner Towels will remove “Icky-PIC”, heavy grease, lubricants, adhesives, oils, tar, asphalt, inks, wax, coal dust, graphite and grass stains. Soils are absorbed into the patented towel and not re-transferred.

### Are They Safe To The User?

PREMIER Hand Cleaner Towels have been tested thoroughly in the field and have undergone independent laboratory testing. They are non-toxic, won't irritate skin and they do not require cautionary statements. PREMIER Hand Cleaner Towels have a flash point in excess of 200°F, and an HMIS flammability rating of one. The polypropylene wiping material and container are fully recyclable (contact your local agencies for details). PREMIER Hand Cleaner Towels are USDA Authorized, and carry an E-4 rating.

### Are PREMIER Hand Cleaner Towels Economical to Use?

Yes. PREMIER Hand Cleaner Towels serve as a very economical addition to any work environment. Significant time and labor savings are realized due to on-site, water-free hand cleaning. These benefits mean that this product becomes an extremely effective cost savings tool in relationship to other cleaning options.

### Description

- Pre-Moistened, Heavy Duty Towel with Pumice Scrubbing Power
- Works Fast to Loosen, Dissolve and Absorb Dirt and Grease
- Contains Germ-Fighting Triclosan
- Conditions and Softens Hands

# Crimping and Stripping Tools

Ratcheting Crimp Tool

## PREMIER® Ratcheting Crimp Tool

The Ratcheting Crimp Tool is designed for consistent, high quality connections of three types of modular plugs. The triple crimp cavity accommodates 4P, 6P, and 8P modular plugs. The ratcheting mechanism assures consistent, repeatable crimps of the primary strain relief on modular plugs. Both tools cut and strip flat satin cordage, and round cable can be cut and stripped with the newly designed tool. The rubber-embedded handles provide superior leverage and comfort. The steel frame has a black oxide finish to prevent rust and corrosion.

### PREMIER

Item No.	Mfg. Part No.	Description
0000127719	PT-864/UC-864	Ratcheting Crimp Tool for 4 pin 6 pin and 8 pin Modular Plugs (New Design)

PREMIER Coaxial Compression Crimp Tool

## SealTite™ Pro Coaxial Crimper

The SealTite Pro coaxial crimper is a universal tool that preforms a watertight compression crimp on RG59, RG6, and RG6 quad cables. The tool also crimps CATV "F", BNC, and RCA connectors from multiple manufacturers. The crimp height is easily adjustable and can be secured with a locking nut. With the new design, there is no need for separate adapters which are easily misplaced.

Data SureStrip Cable Stripper

## Data SureStrip® Stripper

The Data SureStrip stripper cuts and strips UTP/STP round cable, 25-pair phone cable, and flat satin phone cable. The blade depth easily adjusts with a thumb screw, and then self regulates to prevent nicks to the conductors under the outer jacket.

### PREMIER

Item No.	Mfg. Part No.	Description
0000127988	PT-1116	Stripper for 4 pair and 25 pair Round Cable and Flat Satin Cable

## PREMIER Punch Down Tools

Punch down tool and accessories are for terminating wires onto 110 and 66 type IDC connections.

**PREMIER** Hand Held Termination Tool

Punch Down Tool with 66 Blade

Replacement Double 110 Blade

Item No.	Mfg. Part No.	Description
0000024946	SP-1002P-RD	Punch Down Handheld Termination Tool (Handheld Puck)
7409257501	PT-4572	Replacement 110 Blade For Punch Down Tool
7409027501	PT-4573	Replacement 66 Blade For Punch Down Tool

## PREMIER EZ90 Termination Tool

**PREMIER**

The PREMIER EZ90 solution offers you a cost-effective way of terminating PREMIER voice and data jacks. The PREMIER EZ90 jack design keeps the wires fixed in the terminals before termination. Just one simple squeeze of the handle and the EZ90 tool seats and terminates all wires as well as cuts off the excess wire. The tool's handle lock feature greatly reduces the tool size making it safer and easier to carry and store. The replaceable cutting module design provides for longer tool life and cost savings.

- Time of termination decreased by 85%
- Less force required to terminate versus standard punch down tool
- Convenient termination for any field installation
- Additional cutting module provided for longer tool life
- Light weight, sturdy design

Item No.	Mfg. Part No.	Description
0000227825	PT-EZ90	EZ90 termination tool for EZ90 jacks
0000406458	PT-EZ90-CM	Replacement Cutting Module for EZ90 Termination Tool

# PREMIER® Durable Outdoor Signs

Durable outdoor signs communicate your important information, identify potential hazards, and help prevent accidents season after season. Use industry standard symbols and headers, or submit your own symbols and messages for a custom solution. We can use pre-approved layouts you provide or create custom artwork for you with headers and graphics that conform to current ANSI/NEMA guidelines.

PREMIER can help you configure the signage solution with the right message, graphics and materials to best meet your needs.

	OUTDOOR DURABILITY	VANDAL RESISTANCE	FEATURES	THICKNESS (inches)	TYPICAL LEAD TIMES

# PREMIER® Safety Wipes – Sunscreen Wipes and Insect Repellent Wipes

## PREMIER® Sunscreen Wipes

PREMIER Sunscreen Wipes combine a unique liquid sunscreen formula and a large, lint-free wipe. The wipe will remain open and retain its original size while applying to the face, neck and arms. PREMIER Sunscreen delivers full sun protection for professionals who work in the outside environment. This formula is waterproof and greaseless.

### Features and Benefits

- » SPF 30+
- » Water/Sweat Resistant
- » Non-greasy
- » UVA/UVB Protection
- » Aminobenzoic Acid [PABA] - free
- » Safe on Rubber Gloves (Passed Lineman's Glove Testing Type 1 Class 2 ANSI/ASTM-D412)
- » Sun Alert: Limiting sun exposure, wearing protective clothing and using sunscreens may reduce the risks of skin aging, skin cancer and other harmful effects of the sun.

#### Sunscreen Wipes

Item Number	Part Number	Description
0000286175	PT-9120182900	Sunscreen Wipes SPF30+ Pkg of 25

## SCRUBS® INSECT SHIELD™ Insect Repellent Wipes

SCRUBS® INSECT SHIELD™ Insect Repellent Wipes feature an insect Repellent formula combined with a large, lint-free wipe. The 30% DEET insect Repellent formula provides a safe, yet highly effective level of protection. The wipe allows for a one-step, controlled application with no worry of inhaling mist or vapors. Once applied, the formula is waterproof and greaseless so it won't interfere with activities or tasks. Each wipe is individually packaged, making it easy and convenient to carry or store.

\* Do not apply product near eyes and mouth.

### Features and Benefits

- » 30% DEET
- » Easy Application
- » Non-greasy
- » Waterproof Formula
- » Long Lasting Protection
- » Effective against: Mosquitoes, Ticks, Chiggers, Flies, Fleas and No-See-Ums

# PREMIER® Splice Protection Sleeves

## Product Overview

Protection Sleeves Length: 40mm, 60mm.

Steel needle Diameter: 1.2mm

- (1) Splice point protection
- (2) External tube clearly showing the status of connection
- (3) Airproof configuration keeping the splice point's good resistance of humidity and temperature
- (4) Operating temperature ranging from -45°C to 100°C

1 – Outer Tubing 2 – Strength Member 3 – Inner Tubing

## Moisture resistant for environmental protection:

- (1) Consist of cross-linked polyolefin, hot fusion tubing and stainless reinforced steel rod.
- (2) Maintains optical transmission performance.
- (3) Provides protection for fiber splicing.
- (4) No damage to the optical fiber during installation.

## Features

- » Single hole (preshrunk) ends eliminates improper fiber threading
- » Smooth, deburred stainless steel reinforcing member ends decrease the risk of fiber damage during installation
- » Extended liner length prevents contact between the fiber and the backbone
- » Clear sleeve design per sign permits easy centering of splice before heating
- » Sealing structure makes the splice free from effect of temperature and humidity from environment
- » Minimum fully recovery temperature: 120 °C
- » Designed to restore complete environmental and mechanical integrity of coating or buffer of optical fiber after splicing.
- » Sleeves are manufactured using state of the art machines and controlled manufacturing environment in an ISO 9001 certified manufacturing facility.
- » Outer tube conforms to MIL-I 23053/5 class 2 standards.
- » Hot melt adhesive tube made from polyolefin Ethyl Vinyl Acetate copolymer bonds both to the fiber and heat shrinkable outer tube to effectively encapsulate fusion splice.
- » Strength member is made from “Full hard” stainless steel of 304 grade and is ground at the edges before polishing to make it completely burr free to avoid rupturing during shrinking. 304 grade gives better corrosion resistance, even in coastal environment. Resistant to heat shocks, no cracking dripping or flowing.
- » Long term proven performance, exceeds industry standards.

# Truper Tools from PREMIER®

PREMIER offers a premium line of contractor grade tools, geared toward the customer who recognizes the value in high-end tools. Truper Tools from PREMIER offer the best value at the top end of the market.

## Tru Pro Professional Grade digging tools feature:

- » 9 Inch soft cushioned grip
- » Fiberglass handles with 0.11 Inch wall thickness
- » Steel insert in handles provide up to 400 pounds of handle strength in dynamic load tests
- » Rivetless steel ring connect shovel neck and handle making it one solid unit
- » 14 gauge heads

## Tru Tough Landscaper Grade digging tools feature:

- » American Ash wooden handles
- » Turned steps
- » Steel collar reinforcement plus rivets securing handles to heads
- » Steel and wood D Grips have seamless electronic welds and double riveted heavy gauge braces
- » 16 gauge heads

## Tru Pro Professional Grade Long Handled California Trenching Shovels Feature:

- » 47 Inch American Ash Wooden Handles
- » Turned Steps
- » 2-piece construction blades provide optimum trenching angle and leverage
- » Rivets securing heads to handles
- » 13 gauge heads

## Heavy Duty Digging and Tamping Bars feature:

- » Drop forged and tempered construction
- » Superior strength for prying, digging, and tamping
- » 16 lb.
- » Rust resistant black finish

## Snow Shovel features:

- » 36 Inch Steel Handle with D style grip
- » Mid sleeve grip to insulate hands in cold weather
- » 18-Inch-wide aluminum blade
- » Galvanized metal wear strip on blade

# Bonide® from PREMIER

## Wasp and Hornet Killer

Bonide Wasp and Hornet Killer is specially formulated to provide instant knockdown and quick kill of wasps and hornets from up to 20 feet away. Residual action will also prevent re-nesting.

Get more product per can with Bonide Wasp and Hornet Killer 15 oz. net contents can. For best results, spray in the early morning or late evening when insect activity is minimal.

### Features

- » Kills wasps, hornets, and carpenter bees
- » Instant knock down
- » Quick kill
- » Residual action prevents re-nesting
- » Sprays up to 20'
- » Dielectric breakdown voltage of 47,300 volts
- » 15 oz. net contents per can

# Tracer Wire

» Pro-Trace Tracer Wire

# Pro-Trace **TRACER WIRE**

## Pro Trace HF-CCS

Designed with the Flexibility, memory, and feel of copper, and 43% higher break load. This CCS tracer wire is equal in signal performance, and cost less than traditional copper tracer wire.

High Flex Copper Clad Steel

AVAILABLE IN:  
30 MIL HDPE & 45 MIL HDPE

WIRE GAUGE:  
18, 16, 14, 12, 10 & 8 AWG

LENGTH:  
500', 1000', 2500'

## Pro Trace HDD-CCS

PRO-TRACE<sup>®</sup> HDD-CCS PE45 conductor is equal to Copper in signal tracing performance for tracer wire applications not exceeding 600 Vols. Tracer wire is used to conductively locate buried utility lines for gas, water, sewer, telecommunications, and electrical markets.

Horizontal Directional  
Drilling Copper Clad Steel

AVAILABLE IN:  
45 MIL HDPE

WIRE GAUGE:  
14, 12, 10, 8 AWG & 4 STR

LENGTH:  
500', 1000', 2500'

## Pro Trace HS-CCS

A high carbon steel core, metallurgically bonded with a copper cladding, that is uniform and continuous, creating a bi-metal conductor that acts as one and is corrosion resistant. Special annealing processes are performed during the cladding process to giving HS-CCS twice the tensile strength and significantly reducing line breakage experienced with copper trace wire.

High Strength Copper Clad Steel

AVAILABLE IN:  
30 MIL HDPE & 45 MIL HDPE

WIRE GAUGE:  
14, 12, 10, 8 AWG & 4 STR

LENGTH:  
500', 1000', 2500'
