

The Network Never Sleeps.™

# From ground to cloud, our approach to transforming networks is nothing short of transformational.

KGP Co is a key strategic partner to the world's leading communication and technology companies creating the next generation of networks. By uniquely combining our Network Services and Supply Chain Solutions, our team's unmatched expertise enables our customers to navigate today's challenges, implement tomorrow's innovations, and build the future.

From ground to cloud, KGP Co is the only company in the industry that offers a complete range of solutions and an integrated approach to build, optimize, and maintain networks. It's why the world's premier communications service providers, utilities, equipment manufacturers, and enterprises depend on us—it's a trust that's hard-earned, built on a culture that values long-standing relationships and a fearless devotion to do whatever it takes.

**Because we know the network never sleeps. *And neither do we.***

Nationwide distribution  
network and \$300M  
in inventory

End-to-end network  
deployment services

Deploying disaggregated  
networking solutions

## Supply Chain

**As North America's premier supply chain solutions provider, we provide everything to construct, maintain, and connect customers to your network.**

- Design, implement and manage custom supply chain programs
- Turnkey solutions for fiber builds, cell site construction and kitting projects
- Procurement and inventory management for product delivery where and when you need it

## Network Services

**We build and support network deployments in Wireless, Wireline, Data Center and Outside Plant environments.**

- On-site commissioning, integration and operational validation
- Construction and installation using our field installation teams for reduced cycle times
- Preventative and emergency network maintenance and disaster restoration

## Network Cloud Solutions

**We are your partner for network evolution and transformation.**

- KGP Co OneTouch™ provides a single source for everything from design and architecture to production and sourcing to installation and support
- Development of carrier-grade disaggregated, virtualized, vendor agnostic solutions.
- Testing and validation in real-world environments using continual process improvement methods for zero-defect delivery
